

46025-65123-00 - Papetti's® Frozen Liquid Whole Eggs with Citric Acid, 6/5 Lb Cartons

Real whole eggs already cracked and conveniently packaged. This saves time and labor by avoiding the hassle and mess of cracking shell eggs. To ensure safety for customers, it is pasteurized while maintaining nutritious quality. Citric acid added to maintain color of eggs when cooked. 5 lb. cartons are easier to handle than larger bulk packages, but still create less waste than smaller containers.

Brand: Papetti's®

Pack Size	6/5 Lb	Case L,W,H	13.13 IN, 8.81 IN, 11 IN
Shelf Life	365 Days	Cube	0.74 CF
Tie x High	15 x 5		

Preparation and Cooking

Griddle Fry: Preheat Temp 250°F - 275°F; Apply cooking oil or non-stick spray to the skillet or griddle surface. Pour desired amount of eggs into skillet or griddle over medium heat (250-275°F). To scramble: as eggs begin to set, gently scrape the bottom and sides of the pan to create soft, fluffy curds. Continue gently scraping the pan every 10-15 seconds. Do not stir constantly or the eggs will break into tiny curds. Cook until eggs are set but still moist. Remove cooked eggs from pan, residual heat in the pan can dry and toughen the eggs. For filled omelets: as eggs begin to set, top with filling, loosen edges of omelet and fold in half.

Thaw: To ensure adequate thawing, remove cartons from case and place in refrigerator, not to exceed 40°F (4.4°C). Space cartons to allow for air movement. Thaw, unopened, in refrigerator for 2-5 days.; Due to variance in equipment, heating time and temperature may require adjustment. Product should be heated to 165°F (74°C) internal temperature.

Unknown: Use whenever whole egg is required in formulations and recipes.

Serving Suggestions

Use most anywhere you would use eggs. Scrambled eggs, omelets, quiches, pancakes, crepes or countless baking applications, sauces, and dressings.

Product Features and Benefits

6/5lbs Cartons Conveniently Packaged Real Whole Eggs Time Savings Pasteurized

Packaging and Storage

Trucks carrying this product will be loaded and transported in a sanitary manner following all requirements stated in this specification. Product will be transported and stored at a temperature of 0°F (-17.7°C) or below with the actual temperature not to exceed 10°F (-12.2°C). If the product temperature deviates from this specification for any amount of time, the shelf life may be shortened or the product functionality may be affected.

Allergens

CONTAINS:
 Eggs and their derivatives
